Arithmetic Operations

Type your answers

Instruction	eax
	FFFFFFF
inc eax	
inc al	
dec al	
inc ax	
dec ax	
inc eax	
inc eax	

Hexadecimal multiplication is like decimal multiplication. However, using hexadecimal symbols.

For example

```
123
x 45
----
 615
+492
----
5535
```

Now, perform the following multiplication in hexadecimal and show your work like the decimal example

Multiply 0XAF, 0X2C

Multiply 0XAFC2, 0X45AC
